2011 4-H BEEKEEPING ESSAY CONTEST ANNOUNCEMENT AND RULES

Sponsored by The Foundation for the Preservation of Honey Bees, Inc.

AWARDS: Cash Prizes to 3 Top Winners:
• 1st Place -- $750.00
• 2nd Place -- $500.00
• 3rd Place -- $250.00
Each State Winner, including the national winners, receives an appropriate book about honey bees, beekeeping, or honey.

TOPIC: For the 2011 essay contest, the essay topic is:

“U.S. Honey: A Taste for Every Preference”

The taste and color of honey varies according to the flowers where the bees gather the nectar. Each different type of plant will yield honey with a different taste. The same plants, growing in different soils and climates, can yield different honey. The 4-H’ers are encouraged to investigate the local/regional honeys of the United States and see how they differ in taste and color. Is a honey dark with a rich flavor, or light in color and mild-tasting? One honey may be the choice for topping your pancakes; another may be best for baking cookies or cakes. Actual access to the honey for tasting is not required – just find out about some of the characteristics and write about them.

The scope of the research is an essential judging criterion, accounting for 40% of your score. The number of sources consulted, the authority of the sources, and the variety of the sources are all evaluated.

Personal interviews with beekeepers and others familiar with the subject are valued sources of information and should be documented. Sources, which are not cited in the endnotes, should be listed in a “Resources” or “Bibliography” list.

Note that “honey bee” is properly spelled as two words, even though many otherwise authoritative references spell it as one word.
